

amiad filtration systems®

Customer: Food Manufacture

Location: California, USA

Filter Type and Quantity: 5x 8" EBS W/10 μ

Water Source: City water from local wells

Flow Rate: 2000-3000gpm at 45psi

Installation Details: This, state of the art, food-manufacturing plant was designed with the concept of Amiad filters as pre- filters to the city well water on the plant intake. The filters are indeed flushing on a regular base and removing any suspended solids above 10 micron that may interrupt the production lines.

Installation Date: 1/2003
