

Industrial Water Purification Systems

City Water Sand Carbon UV System

KEY

UV - ULTRA-VIOLET UNIT
 PGB - PRESSURE GAGE BRASS
 PGSS - PRESSURE GAGE 316 STAINLESS
 IL - INDICATOR LIGHT
 RM - RESISTIVITY PROBE
 CV - CHECK VALVE
 FM - FLOW METER
 DV - DIAPHRAGM VALVE
 WM - WATER METER
 SP - SAMPLE PORTS

System Description:

This System removes particles, and Chlorine/Chloramine from the incoming city water. We then use Ultraviolet(UV) to keep the water bacterial free and finally run the water through a cartridge filter to make sure there are no carbon fines going out to product. Removing particles and chlorine is almost always the basis for any city water industrial filtration system.
