

Industrial Water Purification Systems

Metalworking Coolant Optical Grinding

KEY

UV - ULTRA-VIOLET UNIT
PGB - PRESSURE GAGE BRASS
PGSS - PRESSURE GAGE 316 STAINLESS
IL - INDICATOR LIGHT
RM - RESISTIVITY PROBE
CV - CHECK VALVE
FM - FLOW METER
DV - DIAPHRAGM VALVE
WM - WATER METER
SP - SAMPLE PORTS

System Description:

This System simply takes the water from a grinding system into a 3-compartment settling collection tank - recirculates the water through bag filters and then returns the water to the grinding machine as required. Notice that the system can run without the grinding machine calling for water. This helps polish the water during off peak periods.
